INCHY HOMEWORK HELP

Times Tables Square, 1 to 12

Find an answer where a row meets a column. The shaded squares on the diagonal are square numbers.

×	1	2	3	4	5	6	7	8	9	10	11	12
1	1	2	3	4	5	6	7	8	9	10	11	12
2	2	4	6	8	10	12	14	16	18	20	22	24
3	3	6	9	12	15	18	21	24	27	30	33	36
4	4	8	12	16	20	24	28	32	36	40	44	48
5	5	10	15	20	25	30	35	40	45	50	55	60
6	6	12	18	24	30	36	42	48	54	60	66	72
7	7	14	21	28	35	42	49	56	63	70	77	84
8	8	16	24	32	40	48	56	64	72	80	88	96
9	9	18	27	36	45	54	63	72	81	90	99	108
10	10	20	30	40	50	60	70	80	90	100	110	120
11	11	22	33	44	55	66	77	88	99	110	121	132
12	12	24	36	48	60	72	84	96	108	120	132	144

Order doesn't matter
3 × 8 = 8 × 3, so each fact you learn gives you two.

Doubling
The 4s are double the 2s. The 8s are double the 4s.

Patterns
The 5s end in 0 or 5. The 10s end in 0. The 11s up to 9 × 11 repeat the digit.
